

Aggregated results of the preliminary surveys at the Horticultural Show and the Community Day

People were asked what they saw as priorities for the Neighbourhood Plan. Replies do not indicate support or objection, just areas of concern.

Weighted data based on total numbers after assigning points on the basis of 6 points for first priority down to 1 point for the sixth priority. 3 people failed to enter priorities in rank order. Where this happened, 3 points were allocated for each indicated priority.

The total sample was 30 completed questionnaires, representing approximately 10% of the parish population.

Community facilities	66
Renewable Energy	39
Housing design	31
Housing numbers	29
Location of development	51
Second/holiday homes	9
